#### 2. Reason

For fiscal 2018, our business performed steadily both domestically and overseas. Owing to this, combined with the recording of share of profit of entities accounted for using equity method, etc., we were able to secure profit attributable to owners of parent that exceeded the initial forecast on a consolidated basis.

Our fundamental policy is to implement stable dividend distribution with business performance taken into account while strengthening our balance sheet and enhancing internal reserves for future business development. In the medium-term management plan announced in April 2018, the consolidated dividend payout ratio was revised to pay stable dividends with a target of 30-35% from fiscal 2018.

This being the case, the year-end dividend for fiscal 2018 is expected to be ¥10.5 per share, ¥1.0 higher than our most recent dividend forecast (¥9.5). As a result, the annual dividend per share will be ¥20.0 (an interim dividend of ¥9.5 and year-end dividend of ¥10.5), with the consolidated dividend payout ratio standing at 33.4%.

This matter will be raised at the Annual Shareholders’ Meeting to be held in June 2019.
